data is created by individuals, but enterprises are responsible for storing and managing 80% of that.

in 0.5% of all data we create is ever analysed and used

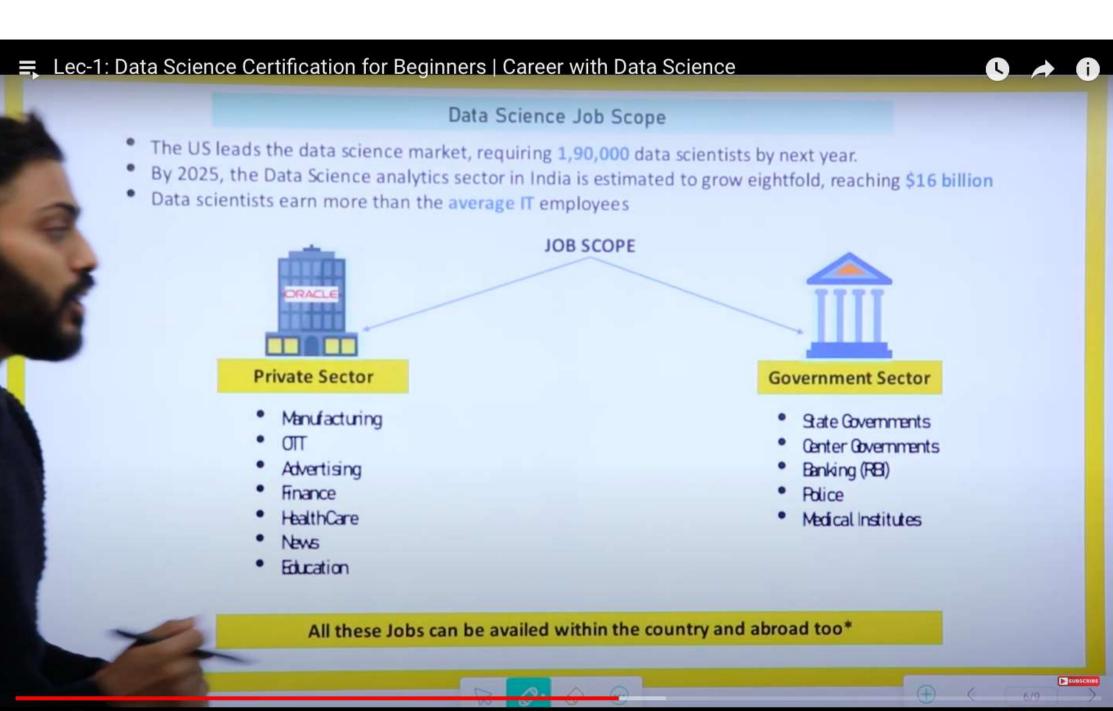

Data Science Job Roles

JOBROLES	A/GSALARY (P.A)
Data Scientist	INR7-8LPA
Data Analyst	INR 6-7 LPA
Application Architect	INR4-6LPA
Business Intelligence Developer	INR 45-65 LPA
Machine Learning Engineer	INR 5-11 LPA
Data Architect	INR 7-10 LPA
Clinical Data Scientist	INR 3-6 LPA
Machine Learning Scientists	INR6LPA
9 atistician	INR 5.34 LPA
Actuarial Scientist	INR10 LPA
Mathematician	INR9 LPA
Data Engineer	INR8LPA
Software Developer Analyst	INR 5.75 LPA

Data Science Job Facts

- Data Science lists among Top 3 Paying jobs
- Data Science lists among Top 5 job openings

indeed

- Data Science Job Salaries lies between 5L-12L
- 36,939+ Data Science Job openings on Indeed.com

■ Lec-1: Data Science Certification for Beginners | Career with Data Science

Data Science Benefitted Stakeholders

Non-Degree Holders

- 10+2 Students ~
- Under Graduate Diplome holders
- M (Computer Course) holders

Degree Holders

- Brech
- Mtech
- Œ
- BSc IT
- BSc CSE
- BSc Mathematics
- BCA
- PCCCA
- MCA
- BBA
- **PCDBA**
- MBA

Would help students to know

- Logic Building (Mathematics Real time Implementation)
- Cutting Edge Technologies (Data Science, Machine Learning)
- Career Pathway Selection (Programming Vs Non-Programming tools)

Would help students to gain

Mathematical and Analytical Skills (Statistics, Predictive Modelling)

Technical Skills (Tableau, R, Python, SQL)

Soft Skills (Business Oriented thinking, Ability to Multitask)

Multi Domain Skills (Every project have blend of different domains)

nyone who have interest in finding insights
